REPORT OF ACTIVITIES OF RESEARCH PROMOTION COUNCIL 2017-18

BRIEF DESCRIPTION OF ACTIVITIES DONE IN THE YEAR 2017-18

- One day Seminar On 'Project Orientation programme' was Jointly organized by the Department of Psychology & Research Promotion Cell on 16 OCTOBER 2017

ANSAR WOMEN'S COLLEGE, PERUMPILAVU (Affiliated to University of Calicut)

REPORT OF ACTIVITIES OF

RESEARCH PROMOTION COUNCIL 2018-19

BRIEF DESCRIPTION OF ACTIVITIES DONE IN THE YEAR 2018-19

- One day workshop was jointly organized by the P.G. Department of Computer science & Research Promotion Cell on the Topic “**Scientific Writing Using Typesetting Software LaTeX**” conducted on 30th July 2018.

ABOUT LATEX

LaTeX is widely used in academics for the communication and publication of scientific documents in many fields, including mathematics, statistics, computer science, engineering, chemistry, physics, economics, linguistics, quantitative psychology, philosophy, and political science. It also has a prominent role in the preparation and publication of books and articles that contain complex multilingual materials, such as Tamil, Sanskrit and Greek. LaTeX uses the TeX typesetting program for formatting its output, and is itself written in the TeX macro language. The typesetting system offers programmable desktop publishing features and extensive facilities for automating most aspects of typesetting and desktop publishing, including numbering and cross-referencing of tables and figures, chapter and section headings, the inclusion of graphics, page layout, indexing and bibliographies
